Telephone: 518-926-7240

Services: Specialized staff of case managers each carry a caseload of 12 to assist individuals with severe psychiatric illness to access care and to function in the community.

Contact: William Keating, LCSW, Program Director

Residential Services

Warren-Washington Association for Mental Health, Inc.

3043 State Rt. 4

Hudson Falls, NY 12839

Telephone: 518-747-0035

Services: The Warren-Washington Association for Mental Health operates 3 levels of residential care for adults with serious mental illness.

1. Community Residences – Genesis & Pearl Street

These programs offer a group home environment with 24-hour staff supervision. The overall goal of the programs is to provide short-term, focused skill development in a home-like setting. Individual rehabilitation plans are developed which clarify need, chart a course of action and provide the framework to evaluate progress. Services available include crisis intervention, rehabilitation counseling, social and living skills development (money management, personal hygiene, food preparation, meal planning, and recreation activities), symptom and medication management, community integration and resource development.

2. Community Living Apartments – Maple Street & Satellite Apartments

The Community Living Apartment Program offers two types of living arrangements. Both include support and guidance through individualized service plans created in partnership with the service recipients. Services are a continuation and expansion of those in the community residence programs, and carry the ultimate goal of achieving an independent, successful life. Residents learn more about managing symptoms through medication and therapy, improving daily living skills, pursuing educational, vocational and employment goals, solving transportation needs, addressing substance abuse issues and increasing their comfort with broader social interaction. Staff meet with recipients from one to seven days each week to provide direct services and supportive counseling.

Maple Street is a single-site apartment building with nine units and 24-hour staffing. Residents maintain separate addresses and telephone numbers and take responsibility for the upkeep of their living space.

The Satellite Apartment program uses eleven individual apartments leased by AMH and located throughout our communities.

Staff provide services through regular visits; an on-call system is used in case of emergency.

3. Supported Housing

Supported Housing helps those ready to leave inpatient care or community residence programs, as well as homeless people with psychiatric disorders in finding quality, permanent and independent housing. A person is assisted in locating and moving into a new home and acquiring necessary furnishings (financial assistance as well as staff assistance). Staff provides continued support for participants to maintain stable living in the community.

Contact: Patricia Snell, LCSW, Program Director

Vocational Services

Liberty House Foundation, Inc.

54 Bay Street

Glens Falls, NY 12801

Telephone: 518-798-1066

Services: Liberty House Foundation is a psychiatric and vocational rehabilitation program serving mentally ill and developmentally disabled individuals utilizing a clubhouse model. A wide variety of support services are provide in the areas of day training (transportation, vocational training units, recreational activities), clinical (rehabilitation planning, symptom management, groups), and employment (situational assessments, diagnostic vocational evaluation, work adjustment training, job development and placement, job coaching, follow-along services) services. Diagnostic vocational evaluation enhanced by personal goal setting encourages achievement in work settings and increased self-esteem.

Contact: Julie Beebe, Executive Director

Competitive Edge

A program of Community Work and Independence, Inc.

88 Broad Street

P.O. Box 443

Glens Falls, NY 12801

Telephone: 518-792-7548

Contact: Sally Hawley, Director of Employment Services

Project C.H.O.I.C.E. (Creating Healthy Opportunities for Individual Choices in Employment)

A program of Warren-Washington Association for Mental Health, Inc.

230 Maple Street, Suite 3

Glens Falls, NY 12801

Telephone: 518-793-4779

Project C.H.O.I.C.E. is a 12 week vocational program which helps people make important decisions about working. Time is spent taking stock of personal values and characteristics that have a significant impact on success in the workplace. Work preferences are examined to help individuals make choices that are likely to lead to satisfaction and success. Information about effective relationships at work and positive work behaviors is presented via videotapes, speakers and group exercises. Resume development and interviewing skills are also addressed.

Contact: Belinda Bradley, Program Director

Social Programs

East Side Center

A program of Warren-Washington Association for Mental Health, Inc.

230 Maple Street, Suite 3

Glens Falls, NY 12801

Telephone: 518-793-4799

Services: East Side Center is a psychiatric rehabilitation program which supports personal growth in various areas of life. Well-being and rehabilitation are fostered through vocational and pre-vocational programs, supportive counseling, recreation and socialization activities, educational training and health workshops.

Residential Services

820 River Street, Inc.

13 Crandall Street

Glens Falls, NY 12801

Telephone: 518-743-0475

Services: 820 River Street operates two levels of housing for adults recovering from alcohol or substance abuse:

1. Community Residences – 13 Crandall Street (for men) and Granville Community Residence (for women)

This level of residential services offers a group home environment with 24-hour staff supervision. The overall goal of the programs is to provide a sober living environment, in addition to services, that will enable an individual to become a productive member of the community. Residents are linked with outpatient treatment services, vocational rehabilitation services, education resources, and are assisted with employment.

2. Supported Housing – Lawrence Street Apartments

This level of residential services provides housing for individuals who are ready to leave inpatient care or a community residence program but who still require some support. Apartments are located in the community and have on-site staff available during the day, with 24-hour on-call staff available after hours.
